

Dia2_Actividad2

Carlos Daniel Carrillo Domínguez

#Script1

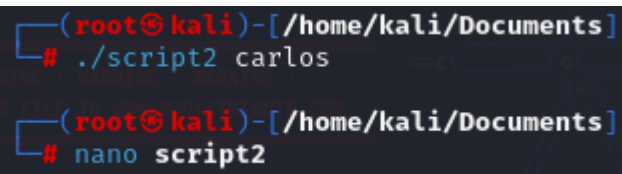

```
useradd -d /home/$1 -s /bin/zsh $1 -p $1 -c "act2";
```

#Comandos por consola

```
chmod 744 script2
```

```
./script2 carlos
```

#Capturas

The image contains two terminal window screenshots. The first screenshot shows a root prompt at a kali machine in the directory /home/kali/Documents, where the command `./script2 carlos` has been executed. The second screenshot shows the same prompt and directory, but with the command `nano script2` being entered.

```
(root@kali)-[/home/kali/Documents]  
# ./script2 carlos  
  
(root@kali)-[/home/kali/Documents]  
# nano script2
```
